## NEW POWER PLANT READY FOR BUSINESS

And the People of Menasha Will Shortly Be Utilizing Electric Energy Generated and Purveyed by the Municipality—A News Letter

(Special to The Northwestern.)  
Menasha, Wis. — The new engine recently purchased by Menasha taxpayers from money earned by the water and light plant, was put in operation at the city plant last evening for the first time.  
Supt. J. H. Kuester ordered a light lead attached to the engine and it performed most satisfactorily.  
When a full load is carried, local patrons will be using electric energy generated by the city and supplied through the municipal plant.  
Current has been purchased from the W. T. L. H. & P. company the last six years at an approximate average of \$1,200 per month.

**MR. SUSS IS DEAD.**  
Peter Suss, well known First ward resident, passed away at his home at 240 First street, Tuesday, after an illness extending over a period of eighteen months.

Mr. Suss was born at Leroy, Wis., April 29, 1871, but came to Menasha more than a half century ago. He is survived by his wife and two sons, Leo and Gregor Suss, of Menasha; one grandson, Ervin Suss; two brothers, John and Theodore Suss, both of this city, and four sisters, Mrs. John Schmitzer, Mrs. James Kelly, Mrs. Rosa Burroughs, all of Menasha, and Mrs. Joseph Neukirch of Isaquah, Wash.

He was a member of St. Joseph, Holy Name and German societies and of the Menasha order of Eagles.

Funeral services will be held at St. Mary's church, Friday, morning at 9 o'clock, Rev. John Hummel officiating. Interment will be at St. Mary's cemetery.

### DEATH OF MOTHER.

Edward J. Terrien, 605 Nicolet boulevard, has received a message from Depere, announcing the death of his mother, Mrs. Peter Terrien, well known resident of the latter city. The funeral will be held at Depere.

### STURGEON BAY PIONEER.

J. W. Herbold, 709 First street, went to Sturgeon Bay because of the death of his father-in-law, John Smith. The deceased was one of the pioneer residents of the northern city, where funeral services will be held Thursday.

### BRYAN LODGE ELECTS.

Bryan lodge, F. & A. M., elected the following officers for the year: W. J. W. G. Trilling; S. V. Ernest Peters; J. W. C. W. Loomans; secretary, H. B. Sutton; treasurer; J. D. Page. The appointive offices of the lodge were not filled at this time.

### COLONY IN FLORIDA.

A Menasha colony is developing in Florida, according to report from Mr. and Mrs. George P. Pierce, who are spending the winter in the southern state. Mr. Pierce states that room rent in Florida is reasonable, despite the fact that one city of 30,000 population will be called upon to entertain 100,000 northern tourists during the winter. He has met many former Menasha residents during his stay in Florida.

### W. L. Wheeler, formerly of this city, is one of the leading real estate agents in St. Petersburg.

### THE WINNEBAGO CAMP.

The following officers were elected at the annual meeting of Winnebago camp of Modern Woodmen: Venerable

## New Mufflers for the old O'coat —or a new O'coat for his old Muffler—

He should have both—but if you are only buying him one gift—choose either a Muffler or an Overcoat and leave it to him to supply the other.

At \$2 to \$4 these Mufflers are as varied as the sands of the desert and as colorful as the Arabian Nights.

In O'coats at \$30 to \$60 we are showing so many coats that it is difficult to describe them in any other way than saying you'll have difficulty in making a choice.

counsel, Henry Sheerin; worthy advisor, Martin Weyenberg; banker, M. J. Spellman; clerk, Peter Novak; escort, George Daniels; trustee, Herman Brodenick, Ben F. Hart and Charles Hook; secretary, Michael O'Brien; watchman, John Ramlich; camp examiner, W. P. McGrath.

### THE MUSICIANS' UNION.

Musicians Protective union of the Twin Cities elected the following officers: President, Melvin E. Mace; vice president, Fred Schmidt; secretary-treasurer, Otto C. Klompf; sergeant-at-arms, Arthur J. Menning.

### EUREKA

(Special to The Northwestern.)

Eureka, Wis.—Thomas and James Carey of Onro called on relatives and others in the village, Thursday. The Rebekah lodge elected the following officers: Noble grand, Mrs. Eva Frey; vice grand, Mrs. Rena Tanner; recording secretary, Mrs. Elhel Parsons; financial secretary, Mrs. Ella Backner; treasurer, Mrs. Jewel Floyd.

Mrs. Emma Weeks has gone to

Rosendale to visit her son, Frank, and family. Mrs. Emma McWain, has gone to Green Bay. Mr. and Mrs. Walter Peterson and daughter, Alice, Fred Harmel and Olga Harmel attended a local talent play at Coloma Friday evening. The show and dance held at Fitzpatrick's hall in honor of Mr. and Mrs. Will Kirk, who were recently married, was largely attended. The couple received many useful gifts.

John Stanton has received word that his mother, Mrs. Frances of Morlay, Mich., is seriously ill. Clark Holcomb of Winnebago is visiting his daughter, Mrs. Carl Stroschne. Father's day was observed at the school Friday, but the bad weather made the attendance small.

The J. O. O. F. lodge elected the following officers: Noble grand, Ted Loker; vice grand, Eugene Steele; recording secretary, S. P. Craig; financial secretary, Alfred Hannis; treasurer, W. W. Tryon.

Mrs. John Barnett went to Berlin, Wednesday, for medical consultation. Mr. and Mrs. A. Park and family of Pickett spent Sunday with Mrs. Parke, parents, Mr. and Mrs. William Steepes. Mrs. L. E. Chapelle has re-

turned from a several weeks visit with her son, Clyde, and family at Wauwatosa. The L. A. S. met with Mrs. Robert Apple.

### HEAVY-HANDED DINERS WRECK TABLEWARE

(By Associated Press.)  
London—The average daily crowd of 70,000 people eating in the numerous restaurants at the Wembley exhibition are responsible for the smashing of 30,000 pieces of crockery every six days. In an average week the breakages are 781 broken cups, 345 dozen saucers, 422 broken plates and 771 dozen miscellaneous pieces, according to the firm which has the contract for feeding the visitors.  
These figures do not include glasses broken in the drinking saloons, and it is stated that it is no uncommon thing in a busy week for one bar to smash 1,500 glasses. As there are some fifty-four bars in the exhibition, it is apparent that the number of glasses smashed since the exhibition opened in April must be about 700,000.

Wise men never trust a second time those who have deceived them once.

## Hand Colored Christmas Cards 50c

10 Hand Colored Christmas Cards—all different—put up in a very neat and attractive box, at 50 cents a box.

theory, that abnormal tides mean the approach of an earthquake.  
Mr. Maeda quotes figures for the tides just before the disastrous earthquake of Sept. 1, 1924. At that time, he says, the tides were so high that the fishermen along the coast, who eke out a living by gathering seaweed in the shallows, complained that the water was so deep in their accustomed hunting grounds that their industry was sadly crippled. Then the big quake came. Mr. Maeda also recalls that excessively low tides preceded an earthquake which did considerable damage in Tokyo and the surrounding country in April, 1922.  
Dr. Melko Inomura, head of the seismological department of the imperial university of Tokyo, admits that there may be some relation between tides and earthquakes, but declares that Mr. Maeda's theory is borne out in only about one case in five and is not yet acceptable.

**For him**  
Don't guess as to his gift. Play safe. He'll be doubly grateful if you present him with a Valet AutoStrop Razor. He knows it is supreme.

**EXPERT FINDS THAT EARTHQUAKES FOLLOW THE EXTREME TIDES**  
Whether there is connection between earthquakes and high tides along the coast.  
Nankichi Maeda, chief of the Choshi meteorological observatory, has brought forth observations covering several years to prove that earthquakes can be foretold by excessive, high or low tides. Early on the morning of Aug. 14 Tokyo and districts to the north were shaken by a fairly severe tremor. For several days previous tides along the Choshi coast, northeast of Tokyo, brought forth observations covering several years to prove that earthquakes can be foretold by excessive, high or low tides. Early on the morning of Aug. 14 Tokyo and districts to the north were shaken by a fairly severe tremor. For several days previous tides along the Choshi coast, northeast of Tokyo, brought forth observations covering several years to prove that earthquakes can be foretold by excessive, high or low tides. Early on the morning of Aug. 14 Tokyo and districts to the north were shaken by a fairly severe tremor. For several days previous tides along the Choshi coast, northeast of Tokyo, brought forth observations covering several years to prove that earthquakes can be foretold by excessive, high or low tides.
